3. Internet (Wi-Fi) Packages

INTERNET PACKAGES TERMS & CONDITIONS:

Stay connected throughout your cruise and share every unforgettable moment with your loved ones. MSC Cruises offers a range of Internet Packages tailored to your connection needs and the number of devices you wish to use on board. Internet access on board is provided via advanced satellite technology, ensuring connectivity wherever your cruise takes you. As satellite coverage depends on external factors, occasional variations in speed or service may occur.

1. Acceptance of Terms

By accessing or using the onboard Internet service, guests confirm that they have read, understood, and accepted these Terms & Conditions, which form an integral part of the MSC Cruises Passenger Contract.

2. Service availability

Internet access on board is provided via satellite communication. Connection speed and stability may vary depending on weather conditions, ship position, and network congestion. Performance may also fluctuate during peak periods, such as early morning or after shore excursions. While every effort is made to maintain stable connectivity, MSC Cruises does not guarantee uninterrupted service, minimum connection speeds, or specific performance levels.

3. Coverage

Wi-Fi is available in all public areas and cabins, including MSC Yacht Club suites. Temporary interruptions may occur while the ship is manoeuvring near ports or sailing through areas with limited satellite visibility.

4. Packages and usage

MSC Cruises offers two Internet Packages: Browse and Browse & Stream, both providing unlimited data under a Fair Use Policy designed to ensure a smooth and equitable experience for all guests on board.

Packages may be purchased for the full cruise or on a per-day basis and are available for 1, 2, 3, or 4 devices. Internet Packages are personal, non-transferable, and intended solely for personal, non-commercial use.

5. Device management

Once a device is connected and activated with an Internet Package, it is registered to that package and cannot be switched to another device. Multi-device plans allow simultaneous use only on the number of devices purchased.

6. Activation and login

Internet Packages can be purchased or activated by connecting to the ship's Wi-Fi network and visiting www.mscwifi.com or directly through the MSC for Me App. Login credentials consist of the guest's cabin number and month/year of birth.

7. Upgrade policy

Guests may upgrade from Browse to Browse & Stream or increase the number of connected devices by paying only the difference between the packages. Downgrades are not available once a package has been activated. Prepaid upgrades retain their original discounted rate.

8. Fair use policy

All MSC Cruises Internet Packages include unlimited data, managed under a Fair Use Policy designed to ensure a stable, secure, and equitable Internet experience for all guests on board.

Internet connectivity is delivered via shared satellite bandwidth. To preserve overall network performance, MSC Cruises reserves the right to manage traffic in cases of unusually heavy, continuous, or disproportionate usage that may negatively affect other guests.

Fair Use management measures may include, but are not limited to, temporary reduction of connection speed or limitation of background or automatic data usage, such as cloud backups, large file transfers, or system and application updates.

MSC Cruises further reserves the right to restrict, suspend, or terminate Internet access in exceptional circumstances involving security risks, unlawful activity, misuse of the network, or actions that compromise network integrity or onboard operations. In such cases, no refund will be due.

9. Acceptable use

Guests agree not to use the Internet service for any unlawful, fraudulent, abusive, harassing, or harmful purpose, nor in a manner that interferes with network security, functionality, or the experience of other guests.

The Internet service may not be used for commercial purposes, resale, redistribution, hotspot sharing, or any activity intended to circumvent system controls or usage limitations.

MSC Cruises reserves the right to act immediately and without prior notice to suspend or terminate access where necessary to protect network integrity, onboard operations, or legal compliance.

10. App compatibility and restrictions

Certain applications, including VPNs, peer-to-peer (P2P) services, corporate tunnels, and region-restricted streaming platforms, may not function properly due to satellite configuration, bandwidth limitations, or proxy settings. Please note that MSC Cruises does not guarantee the availability, compatibility, or performance of third-party applications or services.

11. Device and network settings

Some devices may require adjustments to local settings, such as disabling Private MAC Address features or configuring the IP type to DHCP. Company-issued devices with firewalls, VPNs, or parental control software may prevent a successful connection.

Public Wi-Fi networks are inherently unsecured. Guests are responsible for ensuring appropriate device security, including firewalls, antivirus software, and data protection measures. MSC Cruises is not liable for data loss, interception, or security breaches occurring through use of the Internet service.

12. Age and responsibility

The Internet service is intended for guests aged 18 or older. Minors may use the service only with the consent and supervision of a parent or legal guardian. The purchasing guest or account holder remains fully responsible for all Internet usage associated with their package and connected devices.

13. Pricing and value

Satellite Internet requires significant infrastructure and operational investment. Prices reflect the cost of maintaining a global maritime network. Pre-cruise Internet Packages purchased before sailing are offered at preferential rates compared to on board prices.

14. Responsibility, refunds, and compensation

Internet performance depends on satellite coverage and external factors beyond MSC Cruises' control. Once activated, all Internet Packages are final and non-refundable.

MSC Cruises is not liable for any indirect or consequential losses arising from temporary service interruptions. In the event of a prolonged interruption exceeding what would reasonably be expected from normal satellite or operational conditions, MSC Cruises may, at its discretion or where required by law, provide appropriate compensation or a partial refund. Under no circumstances shall any compensation or refund exceed the amount paid for the affected Internet Package.

15. Assistance

Our friendly Digital Experts, available at The HUB, Photo Gallery, or any onboard Internet Info Point, are pleased to assist with activation, troubleshooting, and package upgrades.

16. 24-Hour Access Option

Guests may purchase a 24-hour pass for one device, available directly onboard through www.msccruisewifi.com or the MSC for Me App.

Before booking any activity excursion it is very important, and your responsibility, that you and any member of your party that has booked an excursion to check that your travel insurance covers the specific type of excursion booked.

You or any member of your booking may be prevented from participating in an excursion (whether pre-booked or not), if it is determined that you or any member of your booking is unsuited to undertake the excursion, or if you or they appear to be under the influence of drugs or alcohol. In the event that you are prevented from undertaking the excursion for any of these reasons then you may not be entitled to any refund of the cost of the excursion booked.

The owner or operator of shore excursions may require participants to sign a liability release and/or assumption of risk form before participating in the excursion. Such releases are particularly common in the case of snorkeling or scuba diving excursions.
